TEMPORARY REMOVAL OF YP AND YR INTERFACE TYPES FROM PCHL5650 INTERFACE TYPE TABLE

Several Requisitions (PCHL2100), Purchase Orders (PCHL2340) and Direct Purchase Orders (PCHL2360) were reported to OFM Client Support Services Help Desk by users because they were receiving F10 errors (Doc Modifier Not Equal to `A'). The error occurs when the system is still in the old year and purchasing documents are moved to the new year using "YR" and "YP" interface types. The error is discovered when users try to do subsequent processing (issue vouchers or document cancellations). To prevent the occurrence of F10 errors, these interface types will be removed from ADPICS effective immediately, and reinstituted on October 1, 2002.
